**Gaming Gals** - This is designed for Girls ONLY. This course provides students with a fun interactive look at the world of video game design and development. Students enrolled in this camp will learn the basics of video game design and produce several different interactive video games to share with their friends and family. Age 10-17

**Movie Makers** - This hands-on, interactive course will instruct students on the world of digital video design and production. Students will film, direct, and edit their own digital video creations. Students enrolled in this course amaze their peers with green screen and special effects work. Age 10-17

**iGamer** - A unique, hands-on class that looks at the world of video game design and development. Students enrolled in this session will learn how to build their own video games from start to finish using award-winning video game development suite of products. The learning for this camp does not end at the door; students will have access to their own video game design and development. Students enrolled in this camp will learn the basics of video game design and produce several different interactive video games to share with their friends and family. Age 10-17

**iCode** - This course offers younger students a fun, interactive look at coding. Students will create virtual avatars and write their own programs that they can share with friends and family. This course makes learning to code fun and explores problem solving and programming logic. Age 6-10

**Web Design** - This hands-on, interactive class will introduce students to the world of web design and development. Students enrolled in this camp will learn the basics of web design and produce several different interactive web sites to share with their friends and family. Age 10-17

**Cost**

Regular Fee: $160 (price per week) Sibling Fee: $145 (price per week)

### EXTENDED CARE

Extended Care - Extended care allows for 7:30a.m. drop-off and 5:30p.m. pick up. Programs with *** indicate extended care is available.

Please note that campers must bring lunch each day. Electronic devices are not allowed during the extended care portion of camp. Campers will be grouped according to age. Extended care is only available for ages 6-12.

**Regular Fee**

$50 per week

### DRONE CAMP

Drone Exploration: Fly, Create, Innovate - The landscape is wide open and there is no better time than now to let your imagination run wild. This program will open the creative minds of participants as they learn all about some of the most fascinating drone solutions to date. Campers will first learn about some of the incredible problems drone technology has solved. Age 9-11 AM | 12-1 PM

Drone Search & Rescue - Participants learn to use drones and fly on their rescue team to locate unique and emerging challenges. Participants will be able to use drones to locate missing persons, animals, and other objects that may be beyond the reach of traditional methods. Participants will then learn to code the drones to fly, fly, and safely return them to safety. We use safe, appropriate and educationally appropriate technologies available for student use. Age 10 AM | 1 PM

Drone Building Camp - Participants will fly, explore, learn, and fly drones on autonomous missions and free flight adventures. Campers will design and build drones using a 3D printing pen, and explore the science involved in rocket construction as you build your own Skyblazer II Rocket™! Age 10-12
